Position as Student Assistant (HiWi)
for Programming in PHP:
Integrating Semantic Web Technologies into Semantic Wikis.

– Spoken Language: English or German –

– Students from all German universities can apply –

We are looking for students who work on extensions of the Semantic MediaWiki (**https://github.com/SemanticMediaWiki/SemanticMediaWiki**), a widely used semantic wiki software.

What prerequisites do you need?

- You have considerable programming skills (basic skills in PHP required).

What do we offer for you?

- A contract with 40-80h per month (including a time span for getting into the topic). The salary is about 15€ per hour (depending on the university degree). The contract can last between 2 and 6 months (option for extension).
- Flexible working hours, also working at home possible.
- A variety of tasks so that you can learn a lot. Also state-of-the-art research can be performed and will be published together with the student.
- If the student likes the work, it can be extended in the form of a Bachelor/Master thesis.

Starting date: As soon as possible. Also later applications (in some months) are welcome.

> Please send your questions and application
